Noindex Empty
Category and Tag
Archives

Setting empty archives to `noindex` is useful for avoiding indexation of thin content pages and dilution of page rank. As soon as a post is added, the page is updated to `index` .

Separator
Character

You can use the separator character in titles by inserting `%separator%` or `%sep%` in the title fields.

Capitalize Titles

Automatically capitalize the first character of each word in the titles.

OpenGraph
Thumbnail

Add or Upload File

When a featured image or an OpenGraph Image is not set for individual posts/pages/CPTs, this image will be used as a fallback thumbnail when your post is shared on Facebook. The recommended image size is 1200 x 630 pixels.

Twitter Card Type

Summary Card with Large Image

Card type selected when creating a new post. This will also be applied for posts without a card type selected.
