Our Story With Perfume

OUR VISION

Why Perfume Manufacturing

Hello everyone, I am James Chan, founder of OEM Scent Lab. I got to know perfume in 2011. During an exclusive trip to France, I discovered that there are brand perfume stores in the streets and alleys. I'm amazed at how versatile branded perfumes can be. Each scented product looks so beautiful and unique, like a work of art. I decided to bring them to my home country, China. So I created my fragrance product manufacturing factory.

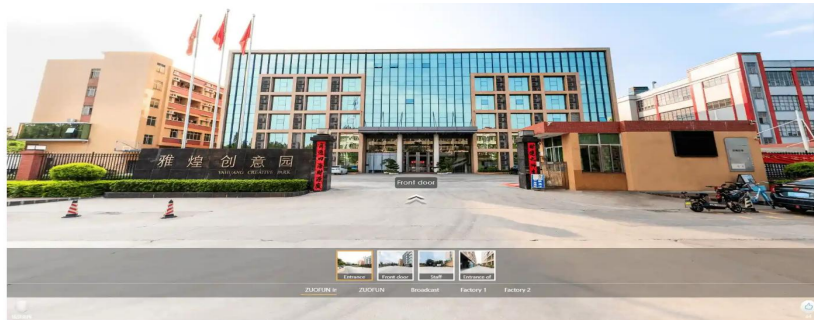

Build Your Own Perfume Product, Unique And Eco-Consious

"We want to create incredible fragrances that adhere to the same values and safety standards as any true luxury product — high-quality, safe, sustainable ingredients. Because what's more luxurious than wearing a perfume that smells great without harming the health of our planet?"

James Chan - CEO

We hope to develop a batch of new perfumes every three months and 5 new styles of perfume glass bottles every month. OEM and ODM are welcome, we will strictly follow your design and protect it.

Create your dream perfume and showcase your brand.

"We are tired of talking about "high-quality products". Product quality is the foundation of an enterprise and the most basic guarantee we should give to our customers. We are more concerned about creating brand value for our customers and using our strong product research and development capabilities to win more for our customers. Expanding market share and creating a stable and strong brand reputation, this is what we have been pursuing for more than ten years."

三、报价以及时间建议

目前修改按照模块分的比较详细，为了减少来回的沟通，建议报价按照模块具体到页面，这样我司可以内部决定是否需要修改，减少互相的沟通成本。或者按照贵司一般计费的原则分也可以，目的是好让我们区分即可。

另外上架时间，可以按照全部修改上线给一个大致的时间，这个不用按照模块预算时间。
